- Java/DSA
- Git/GitHub

PROJECTS

[\[LINK\]](#) **Login/Out** - SwiftUI, FirebaseAuthentication (Personal Project)

- Implemented secure login and logout functionality utilising SwiftUI and Firebase. Leveraged SwiftUI's declarative syntax to design intuitive user interfaces for authentication screens.

[\[LINK\]](#) **News Hub** - SwiftUI, Firebase Authentication, FirebaseFirestore, Firebase Storage, API - NewsAPI (Personal Project)

- Implemented news aggregation app using SwiftUI, integrating with external APIs to fetch news data and display personalised news feeds.
- Implemented login and logout functionality using SwiftUI and Firebase, also implemented user profile displaying user details and profile pic and other firebase base functionality - delete account, change password, change email.
